“DEREK'S 4WD TOURS AUSTRALIA”

TOUR 1 - Half Day 'THE OAKS' (Private Property)

'The Oaks' tour offers many different aspects of this area that the average tourist does not get to see. Visiting this private property is very personal and sentimental to me, being the property where I spent much of my childhood. The tour will include Jarvis Hill Lookout and the Yappala Range, with superb views of Lake Torrens to the west, and Wilpena and surrounding mountains to the east. The valley which we will enter is similar to the interior of Wilpena Pound and the sediments that we drive over are the same sediments that form the rim of Wilpena, and the deserted railway town of Old Hookina where the remains of flood damage from the 1955 and 2007 floods, which most people marvel at.

TOUR 2 - Full Day BUNYEROO & BRACHINA GORGES (Flinders Ranges National Park)

This tour will travel into the Flinders Ranges National Park through the magnificent Bunyeroo and Brachina Gorges featuring a stop at the renowned Razorback Lookout and travelling down the Backbone of the Flinders Ranges. Aspects of this area, which will be discovered, include plant life, geology, Aboriginal culture & plant usage, and remnants of early explorers and settlers. The day will finish off with a lookout to view the area we have traveled and reflect on the day's journey. *This tour was featured on The Great Outdoors with Andrew Daddo.*
